Patients Preparation for Scans

Please bring your doctors referral to your appointment.

- NECK / THYROID** - No preparation
- BREAST** - No preparation
- TESTICULAR** - No preparation
- PELVIC** If you are having a gynaecological/Pelvic ultrasound a full bladder is required. Finish drinking 750ml of water 1 hour prior to appointment time. Do not go to the toilet during this hour.
- PREGNANCY** A full bladder is required. Finish drinking 750ml of water 1 hour prior to appointment time. Do not go to the toilet during this hour.

PARTNERS AND CHILDREN - we acknowledge that your pregnancy ultrasound examination can be a special and important time of bonding between parents and their unborn child. We encourage your partner, or another adult to be present with you. Such an examination requires concentration by the person performing your scan, therefore it is in your best interest not to bring children to the examination.

- RENAL / BLADDER** A full bladder is required. Finish drinking 750ml of water 1 hour prior to appointment time. Do not go to the toilet during this hour.
